

CHARM RING SIZE GUIDE

FIND THE PERFECT FIT FOR THE PERFECT RING.

When purchasing a ring, from engagement to anniversary rings, we often forget about one of the most important factors: ring size. Our Ring Size Guide provides you with the information you need so that the perfect accessory has the perfect fit.

How to find your ring size

In Canada, women's rings typically range from size 3 to 9 while men's rings range from size 8 to 14. If your ring size appears to be in between two sizes, it is recommended that you choose the larger size.

1. Print our Ring Size Guide, ensure that Page Scaling is set to "None"
2. Find a ring that your loved one currently wears for the intended finger
3. Place the ring on top of each circle until you find a perfect match
4. Remember: The matching measurement refers to the inside diameter of the ring
5. If the ring falls between two sizes, select the larger size.

How to make your measurement more accurate

- Remember that each finger could have a different ring size; a ring that fits your left ring finger may not fit your right ring finger.
- Measure when your hands are warm, not cold.
- Make sure the measurement you choose easily fits over your knuckle.
- Avoid using string or paper to measure ring sizes.

It's important that your ring fit comfortably. We encourage you to use our ring size chart before placing your order. Ring sizing policies in our stores can vary – ask your sales associate for details. At Charm Diamond Centres, we will resize your rings quickly, professionally and affordably.
